

Tabled Motion on the Southern Golden Gate Estates Project

At the July 16, 2002 WRAC Meeting, the following motion regarding the Southern Golden Gates Estates Project was made by Beverly Grady, seconded by Marc Kraus, and amended by Jack Moller to read as follows:

WRAC recommends to the Governing Board that it provide all resources needed by Project Manager Janet Starnes and her team to support the Southern Golden Gates Estates Restoration Project as a CERP priority. Furthermore the WRAC requests that the Governing Board communicate to the United States Army Corps of Engineers (USACE) that this restoration project is a top CERP priority. The Governing Board should also request that the USACE and the SFWMD work with Collier County Commissioners and County Managers on this project.

The motion was tabled based on the concern expressed by Malcolm Wade that motions should not be accepted on first reading and without plenty of opportunities for discussion and public comment. He requested that the protocols used by the Governor's Commission for a Sustainable South Florida be reviewed and possibly adopted by the group.
